Message from the Investment and Finance Office

September marked a defining period for Türkiye, as its resilient economy, proactive diplomacy, and investment agenda converged on the global stage across a wide range of sectors.

At the 81st Session of the UN General Assembly (UNGA 81), President Recep Tayyip Erdoğan reaffirmed Türkiye's long-term commitment to global peace, justice, and a more inclusive international order. The President also announced that Türkiye will host COP31 in Antalya this November, with the aim of making it an "implementation COP", that will shift the focus from setting new diplomatic pledges to translating existing commitments into concrete action on the ground.

On the sidelines of UNGA 81 in New York, a series of high-level events highlighted Türkiye's growing role as the powerhouse for investments. The 19th Türkiye Investment Conference featured a Presidential Roundtable, where President Erdoğan met with leading US investors to discuss potential partnerships in strategic industries. The conference also featured the "Türkiye's Economic Outlook and Investment Opportunities Roundtable," which covered the country's medium- and long-term economic outlook and sectoral investment opportunities.

Meanwhile, the Global Turks New York Forum brought together Turkish professionals, entrepreneurs, academics, and business leaders from around the world to connect, exchange ideas, and explore new opportunities. Hosted by the Global Turks Foundation, the forum fostered connections between Türkiye and the global Turkish diaspora while highlighting the achievements and international impact of Turks across a range of fields.

Domestically, Vice President Cevdet Yılmaz presented Türkiye's Medium-Term Program for 2027-2029 earlier in the month, setting out the country's economic roadmap for the next three years. The program prioritizes disinflation and price stability alongside sustainable growth, with GDP growth projected to reach 5 percent by 2029.

On the technology front, Istanbul hosted the inaugural GITEX Ai Türkiye, marking the event's first edition in the country. Hosted by Investment and Finance Office in strategic partnership with the Ministry of Industry and Technology, the event brought together more than 300 exhibitors and startups from 70 countries, positioning Türkiye as a growing hub for technology, innovation, talent, and capital.

Amid the intensive schedule, Investment and Finance Office continued its "20 Years of Excellence" campaign, hosting a high-level reception in Seoul to showcase Türkiye's FDI journey to global business communities.

September also saw several major investment announcements that reflected continued international interest in Türkiye. Netflix announced the finalization of its TRY 10 billion investment plan, highlighting Türkiye's growing strength in the creative industries.

In digital infrastructure, Vodafone Türkiye and EDGNEX announced plans to build a USD 100 million data center in Izmir, while Equinix launched its third data center in Istanbul.

Looking ahead, COP31 is now only a few weeks away. In the lead-up to the summit, the Office held three high-level sessions on climate finance on the margins of the Istanbul Climate Finance Summit, addressing the payment ecosystem, coordinated market infrastructure, and Islamic finance.

Across these engagements, Investment and Finance Office continued to highlight Türkiye's position as the nexus of technology, innovation, and capital. Supported by economic resilience, a strong industrial base, and a competitive incentive framework, Türkiye continues to develop an ecosystem in which talent, technology, and capital come together to create long-term value.

President Erdoğan Meets with Turkish-U.S. Business Community in New York

President Recep Tayyip Erdoğan met with leading representatives of the Turkish-U.S. business community on several occasions during the 19th Türkiye Investment Conference, held in New York on the sidelines of the 81st session of the United Nations General Assembly.

President Erdoğan chaired the Investment Conference Presidential Roundtable jointly hosted by the Foreign Economic Relations Board's (DEİK) Türkiye-U.S. Business Council (TAİK) and the U.S. Chamber of Commerce's U.S.-Türkiye Business Council (USTBC) at the Turkish House (Türkevi). The roundtable was attended by Trade Minister Prof. Dr. Ömer Bolat, Foreign Affairs Minister Hakan Fidan, Energy and Natural Resources Minister Alparslan Bayraktar, Environment, Urbanization and Climate Change Minister Murat Kurum, Treasury and Finance Minister Mehmet Şimşek, Industry and Technology Minister Mehmet Fatih Kacır, Investment and Finance Office President A. Burak Dağlıoğlu, Central Bank of the Republic of Türkiye Governor Fatih Karahan, U.S. EXIM President John Jovanovic, Ambassador of Türkiye to Washington Sedat Önal, U.S. Ambassador to Türkiye Thomas J. Barrack, DEİK President Nail Olpak, DEİK/TAİK Chairman Murat Özyeğin, U.S. Chamber of Commerce U.S.-Türkiye Business Council Chairman Hamdi Ulukaya, and senior executives representing Fortune 100 companies.

Drawing attention to the evolving global economic landscape, President Erdoğan highlighted major transformations expected to reshape regional supply chains, trade routes, investment flows, reconstruction efforts, and high-technology sectors. The President emphasized Türkiye's competitive position as companies increasingly consider resilience and security alongside cost efficiency when making supply chain and investment decisions.

President Erdoğan also highlighted Türkiye's strategic position at the nexus of major regional trade corridors, underscoring the opportunities created by regional reconstruction projects and the extensive capabilities and international experience of Türkiye's construction sector. The President highlighted the growing potential of Türkiye's defense and high-technology industries, stressing the country's capacity to contribute to the supply security of its allies. He also emphasized Türkiye's efforts to attract investment and enable international investors to capitalize on emerging opportunities arising from global and regional transformations.

President Erdoğan also drew attention to Türkiye's investment support ecosystem and invited the business community to engage with the Investment and Finance Office's branches in the United States. "Our foreign missions, particularly our Investment and Finance Office in Washington and New York, are always ready to support you."

Following the Presidential Roundtable, the delegation first attended the "Türkiye's Economic Outlook and Investment Opportunities Roundtable Meeting," hosted by Citi. The meeting brought together Treasury and Finance Minister Mehmet Şimşek, Central Bank of the Republic of Türkiye Governor M. Fatih Karahan, DEİK President Nail Olpak, Investment and Finance Office President A. Burak Dağlıoğlu, DEİK/Türkiye–U.S. Business Council (TAİK) Chairman Murat Özyeğin, Citi's Global Head of Public Sector Banking Stephanie von Friedeburg, and representatives of leading U.S. investment firms.

Discussions focused on Türkiye's medium- and long-term economic outlook, growth targets, productivity gains, price stability, and the role of fiscal discipline in the disinflation process.

Participants also highlighted Türkiye's strong production infrastructure, strategic location, and logistics connectivity, as well as investment opportunities in high-value-added sectors, including advanced manufacturing, green and digital transformation, defense and aerospace, healthcare, tourism, and logistics.

On the morning of the second day, the Energy Roundtable Meeting was held in collaboration with the American Business Roundtable (ATBR) and the Atlantic Council and hosted by Franklin Templeton.

The meeting brought together Energy and Natural Resources Minister Alparslan Bayraktar; Grand National Assembly of Türkiye's Industry, Trade, Energy, Natural Resources, Information and Technology Commission Chair Mustafa Varank; DEİK President Nail Olpak; DEİK/Türkiye–U.S. Business Council (TAİK) Chairman Murat Özyeğin; and senior representatives of U.S. energy companies.

In the afternoon of the same day, the 19th Investment Conference's main session brought together Treasury and Finance Minister Mehmet Şimşek, Trade Minister Prof. Ömer Bolat, Central Bank of the Republic of Türkiye Governor M. Fatih Karahan, DEİK President Nail Olpak, DEİK/Türkiye–U.S. Business Council (TAİK) Chairman Murat Özyeğin, and Citi's Global Head of Public Sector Banking Stephanie von Friedeburg, alongside more than 100 institutional investors, fund managers, and representatives of leading U.S. financial institutions.

Participants shared insights into Türkiye's monetary policy, inflation outlook, and disinflation process, while discussing fiscal discipline, policy continuity, economic resilience, productivity gains, and the country's investment potential.

The multi-day program concluded with strong engagement from the investment community, underscoring the potential to deepen Türkiye-U.S. economic ties and expand investment partnerships in line with the shared goal of reaching USD 100 billion in bilateral trade.

Across the sessions, participants explored opportunities to strengthen cooperation and advance investment across Türkiye's key economic sectors.

President Erdoğan Underscores Global Stability, Security and Technology at UNGA 2026

President Recep Tayyip Erdoğan addressed world leaders at the 81st Session of the United Nations General Assembly (UNGA) in New York on September 22, the opening day of the General Debate, highlighting Türkiye's growing defense industry, resilient economy and regional projects, and announcing that Türkiye will host COP31 in Antalya this November.

President Recep Tayyip Erdoğan drew attention to widenin the President drew attention to widening income inequalities and proposed a new paradigm based on joint development, solidarity and connectivity. Societies connected through roads, trade, energy networks and joint production, the President argued, will ultimately share in peace and stability as well. In this context, he pointed to the Development Road Project, a strategic transportation and energy initiative that Türkiye is advancing with Iraq, as well as the recently established defense alliance with Pakistan and Saudi Arabia.

On technology, President Erdoğan called for a human-centered approach and a common international legal framework for artificial intelligence. The President cautioned that techno-polarization and digital hegemony could pose risks and cause harm to the international system and called for faster progress on the UN International Convention on Artificial Intelligence.

Referring to the regional significance of Türkiye's growing defense industry, President Erdoğan continued his remarks: "Thanks to its growing defense industry and resilient economy, Türkiye continues to be an island of stability amid the conflicts in its vicinity. As an integral part of Europe, our country plays a significant role in ensuring the welfare and security of the European continent. A Europe that excludes Türkiye from its security architecture cannot be stronger or safer."

The President also recalled the NATO Summit hosted by Ankara in early July, the second time Türkiye has welcomed the Alliance's leaders, describing it as a concrete demonstration of the country's commitment to common security. Looking eastward, he said the Asia Anew Initiative is deepening Türkiye's ties with the Asia-Pacific region, with the elevation of relations with ASEAN to dialogue partnership serving as a tangible result.

Drawing attention to the climate crisis, President Erdoğan recalled that Türkiye will host COP31 in Antalya this November, with climate justice given particular prominence through the partnership developed with Australia. Outlining his ambition for the summit, the President noted, "We aim to make COP31 an 'implementation COP' where financial commitments are fulfilled, technology transfer is accelerated and promises are translated into concrete steps."

Türkiye Releases 2027–2029 Medium-Term Program

Türkiye's Medium-Term Program (MTP) for 2027–2029, prepared by the Ministry of Treasury and Finance in collaboration with the Presidency of Strategy and Budget, was published in the Official Gazette on September 6.

Vice President Cevdet Yılmaz introduced the new program during a comprehensive presentation in Ankara, outlining its macroeconomic policies, targets, and priorities, as well as the framework for public revenue, expenditure, and borrowing.

Building on the macroeconomic gains achieved since 2023, the 2027-2029 MTP focuses primarily on continuing the disinflation process and achieving lasting price stability while supporting sustainable growth, productivity, employment, and economic resilience.

Vice President Yılmaz noted that the impact of recent geopolitical developments on the global economy, together with weaker external demand and higher commodity prices, had prompted the government to revise several projections for 2026. The program projects Türkiye's GDP growth at 3.3 percent in 2026, 4.2 percent in 2027, 4.6 percent in 2028, and 5 percent in 2029. Nominal GDP is expected to reach USD 2.2 trillion by 2029, while per capita income is projected to rise to approximately USD 25,000.

The program projects year-end inflation to decline to 28.4 percent in 2026, 21 percent in 2027, 13.5 percent in 2028, and 9 percent in 2029. Alongside these macroeconomic targets, the MTP aims to create 2.1 million additional jobs over the program period and reduce unemployment to below 8 percent. Vice President Yılmaz noted that this would be supported not only by economic growth but also by labor market reforms and active labor market policies.

Vice President Yılmaz also highlighted green and digital transformation as key components of Türkiye's development strategy and the 12th Development Plan. He noted that progress in the green economy could contribute to macroeconomic stability by reducing the current account deficit and strengthening domestic capacity, while supporting Türkiye's long-term carbon-neutral economy objectives.

The MTP further introduces a strategic initiative to support investments that strengthen supply security, reduce foreign dependency, and have strong R&D components in line with Türkiye's green and digital transformation objectives. The investment incentive system will increasingly adopt a project-oriented approach, while state support will also target the production of critical components through domestic capabilities in priority sectors. In addition, measures supporting branding, certification, and e-commerce infrastructure will help facilitate the commercialization of local products in global export markets.

Vice President Yılmaz also emphasized that Türkiye's economic relations should be assessed not only through trade in goods, but also through services, tourism, financial investment, and foreign direct investment (FDI).

Türkiye Aims to Mobilize More Than USD 3 Billion for Green Transformation

Minister of Industry and Technology Mehmet Fatih Kacır outlined Türkiye's green transformation policies, international financing mechanisms and investment targets in artificial intelligence at the High-Level Forum on Sustainable Public Procurement, held in the United States on September 22, on the sidelines of the 81st Session of the United Nations General Assembly (UNGA).

Addressing the forum, Minister Kacır emphasized that public procurement can play an important role in shaping markets, encouraging innovation and influencing investment decisions. He noted that Türkiye has made green transformation a key priority of its industrial and technology policies in line with its 2053 Net-Zero target, introducing a range of financial instruments and incentives to support the transition across the industrial sector.

These mechanisms are expected to mobilize more than USD 3 billion in investment. In parallel, three projects implemented in cooperation with the World Bank, with a combined value of USD 1 billion, are supporting resource efficiency and innovation.

International financing mechanisms are also contributing to Türkiye's green transformation efforts. The Türkiye Industrial Decarbonization Investment Platform, established in cooperation with the European Bank for Reconstruction and Development (EBRD), the International Bank for Reconstruction and Development (IBRD) and the International Finance Corporation (IFC), aims to provide more than EUR 5 billion in financing by 2030.

Minister Kacır also highlighted Türkiye's use of market-shaping policies to support emerging technologies, noting that the National Artificial Intelligence Action Plan (2026-2030) announced by President Recep Tayyip Erdoğan is built around four pillars, including recognition, leveraging, production and governance, and follows a human-centered and trustworthy approach.

The Minister added that Türkiye is leveraging public procurement to drive innovation, with a target of directing at least 2 percent of the public investment program budget toward artificial intelligence projects. The initiative is designed to accelerate the transition of innovative solutions from pilot applications to scalable, market-ready technologies, strengthening their ability to compete in global markets.

Minister Kacır also pointed to Türkiye's expanding clean energy manufacturing base, noting that the country adds around 8 GW of solar and wind capacity each year and ranks as Europe's largest solar panel manufacturer and among its top five wind turbine manufacturers. He said Türkiye remains committed to advancing sustainable industrial transformation and working with governments, international organizations and the private sector to support global efforts.

Minister Şimşek: Türkiye and the US Need Each Other More Than Ever

Treasury and Finance Minister Mehmet Şimşek attended a reception held at the US Embassy in Ankara on the occasion of the 250th anniversary of American independence on September 9, 2026. In his address, Minister Şimşek stated that Türkiye and the United States need each other more than ever at a time of rising geopolitical uncertainty, fragmentation in the global economy, and deep-rooted structural challenges.

Noting that the US Constitution has remained in force for more than two centuries, Minister Şimşek emphasized the importance of consistency and stability as key assets built over time. Recalling that bilateral relations date back to the 1830 Treaty of Commerce and Navigation, he noted that trade preceded formal diplomacy between the two countries. The Minister also recalled that Turkish and US soldiers fought side by side in Korea in 1950, two years before Türkiye joined NATO.

Referring to the meeting between President Recep Tayyip Erdoğan and US President Donald Trump on the sidelines of the NATO Summit in Ankara, Şimşek said relations had faced some challenges over the past decade but were now showing fresh momentum as the two countries sought to strengthen ties.

Minister Şimşek noted that Türkiye and the US are cooperating on issues including stability in Syria and regional peace and security, while emphasizing the potential for broader cooperation beyond security. The Minister stated that the two countries had set a USD 100 billion bilateral trade target and that trade had already exceeded one-third of this figure, while remaining largely balanced. Addressing the feasibility of the target, he pointed to the significant difference between Türkiye's trade volumes with the EU and the US, noting that geographic proximity and the Customs Union explained part, but not all, of the gap. He identified energy, technology, the defense industry, and resilient supply chains as areas with significant potential for increased cooperation.

Minister Şimşek added that more than 2,400 US companies are already active in Türkiye and emphasized the country's position as the world's 11th largest economy in terms of purchasing power parity, supported by its dynamic market, skilled workforce, strong manufacturing infrastructure, and access to Europe, Asia, the Middle East, and Africa. He noted that Türkiye is focused on strengthening macro-financial stability, increasing predictability, reinforcing the rules-based framework, and improving the investment climate to provide investors with greater confidence for long-term commitments.
The Minister also praised US Ambassador to Ankara Thomas Barrack for contributing new energy and a constructive spirit to bilateral relations.

GITEX Ai Türkiye Makes Its Istanbul Debut with Global Technology and Investment Leaders

GITEX Ai Türkiye, the first Türkiye edition of one of the world's leading technology and artificial intelligence event networks, was held at the Istanbul Expo Center on September 9-10.

Hosted by the Investment and Finance Office in strategic partnership with the Ministry of Industry and Technology, the event brought together startups, investors, technology companies, and policymakers from around the world.

More than 300 corporate exhibitors and startups from 70 countries, 150 global speakers, and more than 100 investors managing combined assets exceeding USD 100 billion participated in the two-day event, which welcomed thousands of visitors.

Global technology companies, including Google Cloud, HPE, NVIDIA, ASUS, Dell Technologies, Huawei and SAP, participated in the event, while companies supported under the Turcorn 100 Program, including Colendi, Vispera, Saha Robotics, WASK and TechSign, also showcased their technologies.

Speaking at the event, Minister of Industry and Technology Mehmet Fatih Kacır highlighted Türkiye's ambition to rank among the leading countries in artificial intelligence. Referring to the country's expanding innovation ecosystem, Minister Kacır noted that Türkiye has established 1,700 R&D centers and supports more than 13,000 companies across 115 technoparks.

The Minister also stated that public fund-of-funds mechanisms have mobilized USD 2.8 billion for the startup ecosystem, while a recently announced USD 300 million allocation to venture capital funds is expected to generate more than USD 750 million in additional financing.

Meanwhile during his key remarks, Investment and Finance Office President A. Burak Dağlıoğlu emphasized Türkiye's transformation from a geographical bridge into a regional hub for manufacturing, R&D, logistics, technology, and entrepreneurship.

"Twenty years ago, Türkiye was often perceived as a bridge between Asia and Europe. Today, Türkiye is a hub for the region," Dağlıoğlu said. "Our ambition for the decades ahead is to become a global economic powerhouse. Combined with our position at the nexus of continents, Türkiye's talent, resilience and strong investment environment give us a powerful foundation to remain competitive as AI reshapes the global economy," Dağlıoğlu said.

At the "From Idea to Impact: Unlocking Women's Power in Türkiye's Innovation Economy" session, Women and Democracy Foundation (KADEM) Chair of the Board of Trustees Sümeyye Erdoğan Bayraktar addressed the role of women and human-centered innovation in the AI era.

Investment and Finance Office Head of Communications Department Gökhan Yücel described GITEX Ai Türkiye as the beginning of "a new platform that connects ideas, capital, talent, and technology through Türkiye." He also moderated the panel session titled "Creative Industries Rewired: What Happens When AI Enters the Studio?", which explored how AI is reshaping creative processes, production models, and the future of the creative industries.

The inaugural GITEX Ai Türkiye put Türkiye at the center of global conversations on technology, investment and entrepreneurship, while opening new avenues for international partnerships and investment. The next edition of GITEX Ai Türkiye will take place on September 15-16, 2027.

Türkiye's Investment Ecosystem Highlighted at Global Turks New York Forum

Investment and Finance Office participated in the Global Turks Foundation New York Forum at Meta's New York headquarters, bringing together more than 300 business leaders and professionals.

The forum, honored by Industry and Technology Mehmet Fatih Kacır and Trade Minister Prof. Dr. Ömer Bolat, marked the launch of the "Global Turks Par Excellence Phase II" research, with Investment and Finance Office among its sponsors.

Investment and Finance Office President A. Burak Dağlıoğlu delivered a speech at the forum, where he underlined the importance of expanding Turkish professionals' access to global networks, opportunities, and decision making platforms.

Dağlıoğlu also presented the Powerhouse for Investments in the Türkiye Century program, which brings together incentives and initiatives covering taxation, investment processes, talent, international capital, entrepreneurship, and the broader business environment.

In his closing remarks, Dağlıoğlu highlighted that the Global Turks Foundation can serve as a bridge connecting Turkish professionals across industries and geographies with international business leaders. He further noted that Investment and Finance Office's engagement with leading international companies, investors, and business organizations worldwide, combined with the foundation's network, could create tangible opportunities for Turkish professionals and further strengthen Türkiye's connections with global business communities.

Investment and Finance Office Celebrates 20th Anniversary with "20 Years of Excellence" Reception in Seoul

Investment and Finance Office continued its global "20 Years of Excellence" campaign with a high-level investment reception in Seoul, hosted in cooperation with the Embassy of the Republic of Türkiye in Seoul and the World Knowledge Forum (WKF).

Bringing together investors, business leaders, entrepreneurs, and public officials from Türkiye and the Republic of Korea, the reception highlighted the growing economic partnership between the two countries and Türkiye's position as a resilient and competitive investment destination amid ongoing global uncertainty.

Earlier in the day, Investment and Finance Office President A. Burak Dağlıoğlu addressed the WKF Türkiye Panel, emphasizing Türkiye's strong economic performance and investment momentum. He noted that Türkiye became Europe's 4th most-invested destination in 2025 and introduced the new incentive framework, Powerhouse for Investments in the Türkiye Century, featuring manufacturing tax incentives, Istanbul Financial Center advantages, and the Office's One-Stop-Shop support model for international investors.

Opening the reception, Dağlıoğlu stated that the Office's 20th anniversary also reflects the broader success of Türkiye's economic transformation. "Over the past two decades, Türkiye has built a dynamic investment ecosystem, and we invite South Korean companies to grow together with Türkiye under our new incentive package," he said.

Türkiye's Ambassador to Korea Salih Murat Tamer underlined that the bilateral relationship has evolved beyond trade into long-term cooperation in investment, manufacturing, and technology, adding that the strong foundation of trust between the two countries creates significant opportunities for future partnerships.

Korea International Trade Association (KITA) Chairman Jin-sik Yoon highlighted the steady growth in bilateral trade since the Korea–Türkiye Free Trade Agreement entered into force, reaching a record USD 10.7 billion, and called for deeper cooperation in strategic sectors, including electric vehicles, batteries, biotechnology, and advanced technologies.

Maeil Business CEO Wi Jung-hwan described the reception as a meaningful occasion celebrating the 20th anniversary of Investment and Finance Office and the longstanding friendship between Korea and Türkiye, with the two countries set to mark the 70th anniversary of diplomatic relations in 2027.

Since its establishment in 2006, Investment and Finance Office has expanded its global investor network through customized, country-specific strategies and today operates with specialized sector teams and 26 country consultants across 14 countries. In 2025, Türkiye attracted USD 13.1 billion in foreign direct investment, demonstrating its continued strength as one of the world's leading investment destinations.

Türkiye's Digital Technology Investment Potential Discussed at DEİK Consultation Meeting

The Digital Technologies Business Council under the Foreign Economic Relations Board (DEİK) held a consultation meeting chaired by DEİK Digital Technologies Business Council Chairman Erdem Erkul, with the participation of Investment and Finance Office President A. Burak Dağlıoğlu, DEİK President Nail Olpak, and DEİK Secretary General Caner Çolak.

As the global investment landscape rapidly evolves around AI, data centers, semiconductors, cybersecurity, and next-generation digital infrastructure, the meeting addressed Türkiye's investment potential and emerging opportunities in digital technologies, with a particular focus on attracting high-value investments, fostering technological development, and strengthening Türkiye's position in global value chains.

The discussions highlighted the importance of strong public-private sector cooperation in advancing Türkiye's digital technology ecosystem and further strengthening its position as the powerhouse for investments.

Equinix Launches Third Data Center in Türkiye

Equinix officially launched its third International Business Exchange™ (IBX) data center in Istanbul, IL3, marking a significant milestone in Türkiye's AI-ready digital infrastructure. The event was attended by Investment and Finance Office Vice President Furkan Karayaka and U.S. Consul General Michael L., alongside Equinix customers and partners.

During the event, Karayaka shared a strategic perspective on Türkiye's investment landscape. The newly launched IL3, designed to support high-density computing workloads, is fully integrated with the existing IL2 and IL4 data centers on Equinix's Istanbul campus, offering 10.8 MW of capacity and uninterrupted connectivity for critical business operations.

The launch reflects growing international investor confidence in Türkiye's digital infrastructure and further reinforces the country's position as the nexus of technology, powering a digital future.

Türkiye's Climate Finance Agenda Discussed Ahead of COP31

Held under the auspices of Ministry of Environment, Urbanization and Climate Change, the Istanbul Climate Finance Summit brought together leading stakeholders from across the climate finance, Islamic finance, and financial technology ecosystems.

As part of Türkiye's preparations in the lead-up to COP31, Investment and Finance Office held three high-level sessions on the margins of the summit, addressing different dimensions of climate finance and the green transition while fostering dialogue and cooperation among public and private sector stakeholders.

The panel titled "Turning Climate Commitments into Action: How the Payment and Electronic Money Ecosystem Can Contribute," jointly hosted by Investment and Finance Office and Association of Payment and Electronic Money Institutions of Türkiye (TÖDEB), opened with remarks by Investment and Finance Office Vice President Furkan Karayaka. The session also marked an important step in international cooperation with the signing of an MoU between TÖDEB and the European Payment Institutions Federation (EPIF).

Meanwhile, the panel titled "Creating Coordinated Market Infrastructure and Effective Deployment in Global Climate Finance and Islamic Finance," co-hosted by Investment and Finance Office and the Participation Banks Association, addressed the growing gap between the availability of climate capital and its effective deployment. With approximately USD 6 trillion in global Islamic finance assets, the session explored the potential of coordinated market infrastructure to pool international liquidity, strengthen risk mitigation, and connect capital with bankable climate projects.

The second Global Islamic Climate Finance Alliance (GICFA) roundtable was held under the theme "Mobilizing Islamic Finance for COP31 Implementation." Moderated by Investment and Finance Office Finance Department Head Dr. Tarık Akın, the roundtable addressed key issues including the COP31 agenda, Türkiye's sustainability perspective, and the potential contribution of Islamic finance to achieving COP31 targets.

Türkiye–Germany Energy Transition Cooperation Discussed

Investment and Finance Office co-hosted the "Investing in Türkiye's Energy Transition" webinar in collaboration with the German Energy Agency (dena) and the Turkish-German Energy and Minerals Partnership.

Moderated by Investment and Finance Office Country Advisor Faruk Kurtulmuş, the session opened with remarks from Investment and Finance Office Vice President Bekir Polat and dena Managing Director Kristina Haverkamp, who highlighted the importance of continued Türkiye–Germany cooperation in advancing the energy transition and creating new opportunities for investment and collaboration.

Bringing together perspectives from KfW IPEX-Bank Türkiye, Nordex Group, Enerjisa, and dena, the webinar explored renewable energy financing, the experiences of German companies operating in Türkiye's energy sector, and emerging investment opportunities across Türkiye's energy transition.

The discussion also highlighted the value of close institutional cooperation and dedicated working groups covering renewable energy and infrastructure, energy efficiency, electricity and gas markets, green hydrogen, and raw materials.

Türkiye's Creative Industries Highlighted at Netflix–AmCham Reception

Investment and Finance Office joined a reception hosted by Netflix and AmCham Türkiye in New York, bringing together leaders from the creative industries, business community, and public sector.

The reception featured remarks by Netflix Content Vice President Diego Ávalos; AmCham Türkiye Chair Emre Karter; Investment and Finance Office Vice President Bekir Polat; and Deputy Foreign Minister Levent Gümrükçü.

In his remarks, Polat highlighted Türkiye as the nexus of stories, emphasizing the country's creative talent, growing production ecosystem, and Netflix's strategic role as a platform that connects local stories with global audiences.

With more than 90 Turkish productions reaching audiences across 190 countries and an ecosystem supporting 15,000 jobs, Türkiye continues to strengthen its position as a global powerhouse for creative industries and content production.

Texas–Türkiye Business Forum Strengthens Bilateral Investment Ties

Investment and Finance Office and the Greater Houston Partnership successfully hosted the Texas-Türkiye Business Forum, bringing together senior executives, industry leaders, and ecosystem partners in Texas to deepen the growing bilateral relations between Texas and Türkiye.

Investment and Finance Office Vice President Bekir Polat delivered a presentation at the forum, where he emphasized Türkiye's strong infrastructure, advanced industrial capabilities, highly skilled talent pool, and strategic connectivity that links investors to major markets across Europe, Asia, and the Middle East.

The program opened with remarks by Greater Houston Partnership Senior Director for Europe, the Middle East, and Africa Jeffrey Blair and Investment and Finance Office Country Advisor Uğur Öztürk, underscoring the shared commitment to strengthening bilateral commercial ties. Türkiye's Consul General in Houston Ahmet Akıntı highlighted the expanding strategic vision between the two economies.

A dynamic panel discussion moderated by Larende Strategic Partners President & CEO Tulay Spicker featured valuable perspectives from JSW Steel USA CEO Rob Simon, ignis H2 Energy Inc. Technical Advisor Sam Abraham, GPI Power LLC General Manager Necati Efe PARKER, and Hewlett Packard Enterprise Vice President Mike Kuchkarov. The esteemed panelists shared firsthand insights into investment experiences, operational advantages, and emerging opportunities across both markets.

The forum concluded with the "Invest in Türkiye: 20 Years of Excellence" reception and brought together a distinguished group of executives, investors, and industry leaders from both countries for high-level networking and dialogue, while fostering new partnerships and further strengthening bilateral cooperation.

Türkiye Showcases Wind Energy Investment Opportunities at WindEnergy Hamburg

WindEnergy Hamburg 2026 brought together more than 1,600 exhibitors and 43,000 trade visitors from around 100 countries, providing a major platform for the global wind energy industry.

Türkiye was strongly represented at the exhibition, where Investment and Finance Office highlighted the country's growing renewable energy investment opportunities and engaged with international investors and industry stakeholders.

A key highlight was the Türkiye Wind Energy Investment Roadshow, held in collaboration with the Turkish Wind Energy Association (TÜREB) and the Global Wind Energy Council (GWEC) under the theme "2040 New Energy Architecture: The Future of the Wind Energy Market and Investment Opportunities in Türkiye." Energy and Natural Resources Deputy Minister Dr. Zafer Demircan and Investment and Finance Office Public-Private Partnership Department Head Ali Kamil Özmen delivered opening remarks, alongside senior representatives from TÜREB, GWEC and the private sector.

Discussions focused on Türkiye's expanding wind energy market, domestic supply chain and investment opportunities in both onshore and offshore wind.

The program also included a visit to the Port of Hamburg, offering insights into investment opportunities in Türkiye's logistics and transport infrastructure.

Vodafone Türkiye and EDGNEX to Build USD 100 Million Data Centre in Izmir

Vodafone Türkiye partnered with UAE-based EDGNEX Data Centres by DAMAC to establish an advanced data center in Izmir, with an estimated investment of USD 100 million. The new facility, will have a capacity of 6 megawatts and will be built to Tier 3 standards, ensuring high levels of uptime, redundancy, and fault tolerance.

The joint venture marks a significant milestone for both companies, combining Vodafone's local infrastructure expertise with EDGNEX's global data center capabilities. EDGNEX Vice Chairman and Board Member Aqil Ali highlighted the project's importance in providing critical digital infrastructure for Türkiye's growing western market, pointing to Izmir's strategic location and the rising demand for data centers across the Eastern Mediterranean.

Vodafone Türkiye CEO Engin Aksoy underlined the company's long-standing commitment to the Turkish economy, noting investments exceeding TRY 157.6 billion over 17 years.

Designed to be earthquake-resistant and powered by green energy sources wherever possible, the Izmir facility will benefit from the city's proximity to submarine cable transit hubs, offering strong connectivity to Europe, Africa, and Asia. The carrier-neutral center is expected to serve a broad customer base, including content creators, wholesale service providers, and businesses requiring disaster recovery services, positioning Izmir as a regional hub for OTT and hyperscaler operators seeking alternative geographic routes.

Florentia Village Opens in Istanbul with EUR 250 Million Investment

Florentia Village, Türkiye's first luxury designer outlet developed to international standards, opened with a gala ceremony in Istanbul. The ceremony brought together Minister of Transport and Infrastructure Abdulkadir Uraloğlu, Minister of Youth and Sports Osman Aşkın Bak, Turkish Grand National Assembly's Industry, Trade, Energy, Natural Resources, Information, and Technology Commission Chair Mustafa Varank, and Turkish Grand National Assembly's Defence Commission Chair Hulusi Akar, alongside business leaders and prominent figures from the worlds of arts, sports, and entertainment. The project, a partnership between Kalyon Construction and Italy-based RDM Fingen Group, was realised through a EUR 250 million investment.

The first phase covers 65,000 square metres of leasable space, with 190 stores alongside gastronomy and social areas. Located just five minutes from Istanbul Airport, Florentia Village is connected to central Istanbul by metro in approximately 25 minutes. The destination brings together global luxury brands, offering both premium outlet and full-price retail, while a second phase will bring the total leasable area to 110,000 square metres.

Kalyon Holding Chairman Cemal Kalyoncu referred to Florentia Village as a cornerstone of the company's Airport City vision, noting that the project brought EUR 180 million in international capital into Türkiye.

RDM Italia CEO Jacopo Mazzei described Istanbul as a world city with extraordinary energy and potential, noting that the project combines Florence's heritage and design approach with Istanbul's distinctive character.

Türkiye–Uzbekistan Financial Cooperation Strengthened at Silk Road Forum

The Silk Road Finance & Technology Forum 2026 brought together policymakers, financial leaders, and technology innovators in Tashkent to explore the future of cross-border financial systems, digital public infrastructure, and the Islamic digital economy.

At the forum, Investment and Finance Office of the Presidency of the Republic of Türkiye Finance Department Head Dr. Tarık Akın participated in a fireside session titled "Strategy and Capacity - What It Actually Takes to Build a National Islamic Finance System," where he emphasized that national strategy execution should avoid copy-paste blueprints and instead adopt a tailored, step-by-step approach.

On the sidelines of the forum's main program, Investment and Finance Office held high-level discussions with the Central Bank of the Republic of Uzbekistan to explore strategic cooperation in participation finance and financial technology.

The Office also conducted a series of targeted bilateral engagements alongside the Global Financial Technology Network (GFTN) and held discussions with Uzbekistan's leading banking institutions, payment service providers, and core infrastructure operators, including UZCARD payment system, to advance cross-border payment connectivity, shared financial infrastructure, and technological integration.

The visit paved the way for strengthening institutional ties and technical dialogue between Türkiye and Uzbekistan, underscoring a shared commitment to building resilient frameworks across Islamic finance and fintech ecosystems.

UAE–Türkiye Forum Highlights Strategic Cooperation in Logistics and Infrastructure

The UAE-Türkiye Logistics and Infrastructure Forum convened in Istanbul, bringing together senior public officials and business leaders to discuss the strategic potential of the Middle Corridor and bilateral cooperation in logistics, supply chains, and transport infrastructure.

Investment and Finance Office Public-Private Partnership Department Head Ali Kamil Özmen delivered the opening address, positioning Türkiye as a central connectivity hub at the intersection of major East-West trade routes, supported by sustained infrastructure investments that continue to expand the country's logistics capabilities.

Türkiye continues to strengthen its position as the nexus of logistics, translating strategic connectivity into lasting international partnerships.

Investment and Finance Office Recognized at MÜSİAD EXPO 2026

Held as part of MÜSİAD EXPO 2026, the International Gala Dinner brought together distinguished representatives of Türkiye's business community, with the participation of Deputy Speaker of the Grand National Assembly of Türkiye Celal Adan and MÜSİAD President Burhan Özdemir. During the ceremony, appreciation plaques were presented to supporting organizations and sponsors in recognition of their contributions to the event.

On behalf of Investment and Finance Office Communications Department Head Gökhan Yücel received the commemorative plaque, reaffirming the Office's continued support for initiatives that foster investment, trade, and international collaboration.

Türkiye Engages in CICA Finance Summit in Astana

The Inaugural Meeting of the CICA Finance Summit and CICA Conference in Astana brought together representatives of CICA Secretariat member states to explore financial connectivity, development financing, sustainable and inclusive finance, and digital financial technologies across the region under the theme "Strengthening Financial Cooperation for Sustainable Growth in the CICA Region."

Investment and Finance Office Financial Investments Unit Manager Kaan Masatçı, participated as a panelist in the session "Promoting Sustainable and Inclusive Financial Development", which focused on mobilizing private and cross-border capital, developing a pipeline of bankable sustainable projects, and strengthening the comparability of national sustainable finance frameworks.

Masatçı highlighted Türkiye's priorities in green and sustainable finance, impact investment, and the mutual recognition of sustainable finance frameworks, while drawing attention to COP31 Türkiye that will be hosted in Antalya in November 2026.

Investment and Finance Office also took part in the first day of Astana Finance Days 2026, engaging in discussions on cross-border capital, tokenization, energy, artificial intelligence, and corporate law.

Türkiye's Fintech Ecosystem Showcased at Money20/20 Middle East

Investment and Finance Office engaged with the region's financial-technology ecosystem at Money20/20 Middle East, one of the sector's leading global gatherings, through a dedicated roadshow led by its team of fintech professionals.

The roadshow in Riyadh presented Türkiye's fast-growing fintech ecosystem and investment landscape to a wide range of regional stakeholders, opening new avenues for cooperation and cross-border partnership.

The engagement contributed to the Office's ongoing work to position Türkiye as the nexus of financial technology, connecting regional capital and expertise with one of the world's most dynamic fintech markets.

One-Stop-Shop Introduced to Global Investors at GITEX AI Türkiye

The newly launched "One-Stop-Shop" was introduced to global investors, entrepreneurs, and tech enthusiasts through an in-depth presentation on the margins of GITEX AI Türkiye by One-Stop-Shop Coordinator Fatih Çelik at the Türkiye Pavilion, hosted by Investment and Finance Office and the Ministry of Industry and Technology.

Çelik explained how One-Stop-Shop combines streamlined public services with the Istanbul Financial Center's competitive incentive framework under Powerhouse for Investments scheme to support international investors throughout their investment journey in Türkiye.

The introduction covered One-Stop-Shop Office and its role, public institutions represented at the Office, the services they provide, and the related workflows, a general overview of company establishment procedures in Türkiye and finally incentive framework and operational advantages available to eligible IFC participants.

Türkiye Energy & Infrastructure Forum Highlights Investment Priorities and Clean-Tech Manufacturing

The Annual Türkiye Energy & Infrastructure Forum brought together public and private sector stakeholders to discuss Türkiye's energy and infrastructure transformation, with a focus on investment strategies in solar, wind, energy storage, and grid projects.

Speaking at a panel titled "What Will Actually Get Built: Capital Flows, Bankability & Investment Priorities in Türkiye Solar + Storage," Investment and Finance Office Project Manager Özkan Özkardeş emphasized the critical importance of regulatory predictability for investors. He noted that developing and implementing future regulatory frameworks in close consultation with industry stakeholders is fundamental to fostering an investor-friendly environment.

Highlighting that regulatory clarity and grid infrastructure risks are being addressed in close coordination with relevant authorities, Özkardeş underscored that heavy industry manufacturers facing pressures from the EU Carbon Border Adjustment Mechanism (CBAM) can consider storage-integrated Corporate Power Purchase Agreements (PPAs) as a viable alternative to mitigate market risks.

Local content requirements in YEKA (Renewable Energy Resource Areas) auctions have provided strong incentives for domestic manufacturing of strategic clean-tech components, helping position Türkiye as a powerhouse for exporting these critical energy technologies to global markets.

Türkiye's Investment Opportunities Showcased at LEAP 2026

Investment and Finance Office participated in LEAP 2026 in Riyadh, one of the region's foremost technology and investment forums, with a dedicated booth at the Turkish Pavilion organized by the Service Exporters' Association.

During the event, Investment and Finance Office Country Advisor Cüneyt Sarıçimen presented Türkiye's investment environment and opportunities in technology-driven sectors to companies, investors, and institutional stakeholders from across Saudi Arabia and the wider region. Discussions centered on Türkiye's competitive capabilities, business-friendly investment framework, and the support available to companies seeking to establish or expand their operations in the country.

The participation reinforced the Office's engagement with the Saudi technology ecosystem, opening new avenues for collaboration between Turkish and Saudi stakeholders in innovation and digital transformation.

Investment and Finance Office Highlights Green Investment Opportunities at Climate Week NYC

Investment and Finance Office participated in "Invest. Build. Impact.", a high-level executive panel and reception hosted by Turner Construction Company at its New York headquarters. Held as part of Climate Week NYC and on the road to COP31 in Antalya, the program was held in partnership with AmCham Türkiye, the World Climate Foundation, Sustainable Business COP, and the Turkish Green Building Council (ÇEDBİK).

The panel brought together leaders from government, international business, finance, and the built environment to discuss how climate ambition can be translated into investment, actionable projects, and measurable impact.

The panel, moderated by Turner Construction Company International Vice President for Europe and Türkiye General Manager Mehmet Sami Kılıç, featured Turner Construction Company Chief Sustainability Officer Julia Gisewite; U.S. Green Building Council President and CEO Peter Templeton; Turkish Green Building Council (ÇEDBİK) President Dr. Emre Ilıcalı; IFC Global Lead for Green and Resilient Buildings Ommid Saberi; and Sustainable Business COP Chair Ricardo Mussa.

Panelists discussed how green building standards, blended finance, and public-private partnerships can move projects from commitment to delivery, and how the lessons of COP30 can shape an implementation-focused agenda in Antalya.

During the reception, Investment and Finance Office held bilateral conversations with participants on opportunities in green construction, sustainable real estate, renewable energy, and climate technology, as well as how international companies can position themselves in Türkiye ahead of COP31.

MÜSİAD EXPO 2026 Brings Global Business Leaders to Türkiye

Global trade, investment, and business leaders have gathered in Istanbul for MÜSİAD EXPO 2026 International Trade Fair – one of the region's leading platforms for international business collaborations and cross-border partnerships. The event brought together thousands of participants from around the world to foster new investment and trade opportunities.

As a supporting organization of the event, Investment and Finance Office is proud to contribute to this global meeting point, reinforcing Türkiye's position as a powerhouse for international investment, innovation, and sustainable economic growth.

Türkiye's Healthcare Investment Opportunities Featured at Forbes Middle East Healthcare Leaders Summit

Investment and Finance Office took part in a panel discussion at the Forbes Middle East Healthcare Leaders Summit which brought together healthcare leaders, investors, entrepreneurs, and industry representatives from across the UAE and the wider Middle East.

Investment and Finance Office Country Advisor A. Emre Büyükkılıç moderated the panel, titled "Capital, Partnerships and Leadership – Catalysing Capability, Growth and Impact," featuring Emirates Hospitals Group Executive Chairman Christian Schuhmacher and AlNadi Pharma Chairman Dr. Mohamed Al Nadi as panelists.

The discussion underlined the importance of partnerships and execution in translating investment and innovation into sustainable growth and long-term impact across the healthcare ecosystem.

Türkiye's well-established healthcare infrastructure, expanding healthtech and life sciences ecosystem, strong pharmaceutical and medical manufacturing capabilities, and growing experience in healthcare services were also highlighted as areas offering opportunities for international investment and partnerships.

Japanese Companies Explore Investment Opportunities in Türkiye

UNIDO ITPO Tokyo hosted a Türkiye program for Japanese companies operating in waste management and disaster prevention, providing participants with a firsthand opportunity to explore Türkiye's ecosystem, connect with potential business partners, and assess investment opportunities.

Accompanied by Belce Gökalp from the Investment and Finance Office, the delegation visited Kahramanmaraş, Ankara, and Istanbul, engaging with key institutions including TOBB, İTO, and KMTSO through business matching and networking events.

The program reinforced Türkiye's growing appeal as the nexus of sustainability for Japanese investment in resilience-focused sectors.

Türkiye's Nearshoring Potential Highlighted at AIM Congress 2026

The 15th edition of AIM Congress, a leading investment platform in the Middle East, was held in Dubai, bringing together 15,800 participants, including heads of state, ministers, investment promotion leaders, global investors, and industry representatives.

Investment and Finance Office Country Advisor A. Emre Büyükkılıç joined fellow panelists for a discussion on "Building Closer, Competing Better: Nearshoring and Europe's New Investment Map," organized in collaboration with FDI Center. The session explored how companies are rethinking their supply chains amid changing geopolitical, economic, and technological conditions.

Türkiye's diversified industrial base, established supplier networks, strong manufacturing capabilities, and connectivity with European and regional markets were highlighted throughout the session.

U.S.–Türkiye Deep-Tech Cooperation Discussed at Tech Summit

Investment and Finance Office attended the Turkish American Tech Summit, bringing together leaders from the technology and investment ecosystems.

As part of the summit, Investment and Finance Office Country Advisor Alicia Sornson moderated the "Funding the Future" fireside conversation with NATO Innovation Fund (NIF) CEO Ari Jonsson.

The discussion explored the distinct dynamics of deep-tech investment, the growing importance of patient capital in defense and dual-use innovation, and the role of the NATO Innovation Fund and DIANA in accelerating emerging technologies.

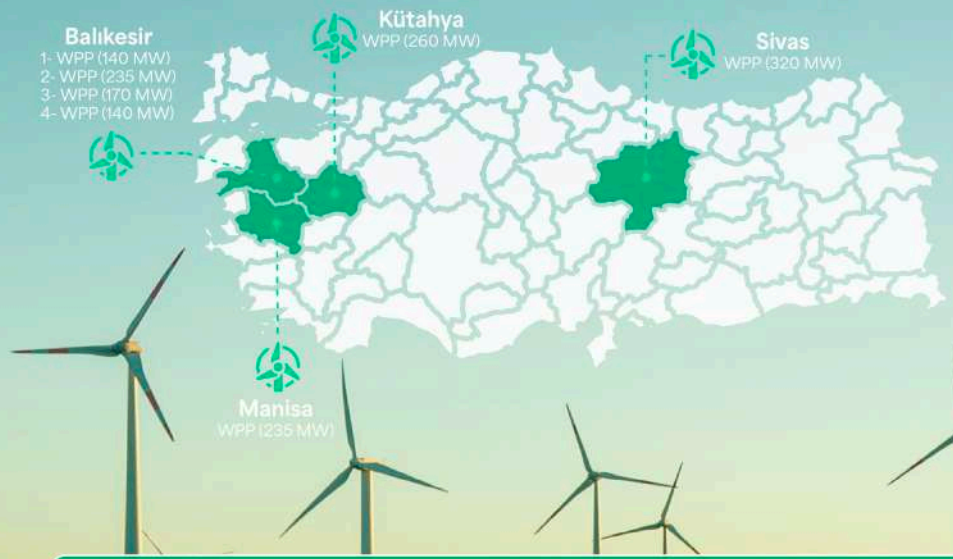

The session also highlighted opportunities to strengthen U.S.–Türkiye collaboration in deep tech and innovation.
